

FOULDEN PARISH COUNCIL
RIGHTS OF WAY

Follow up

22nd September 2019

Hythe Road to School Road footpath. As observed previously, this Right of Way has a gate and no sign to indicate Public Footpath. The first stile is high and there are some nettles to get around. Once over the stile bear left round the field where you come across another stile. This stile is a bit wobbly as posts securing it are not stable. Once over this stile there is a clear path mown, finishing at the last stile. This stile is also unstable but the wire fence next to it has been removed so continuation along the footpath is easy. There is some wire in the grass next to the stile which could be hazardous. The path continues along a non-tarmac road and ends at School Road next to the School Road flats. There is no sign here to indicate Public Footpath.

Unsafe footpath outside opposite 1 School Road – 11th November 2019. I have resubmitted my concern to Norfolk County Council last week as it has been some time since I first contacted NCC who advised they were passing the enquiry to Kettering Depot. I have not yet had feedback.
